2019-20 TLC Members

Citizens and their respective terms who served during the FY 2019-20 as members of the TLC (July 1, 2019- June 30, 2020):

Suzanne Brennan	March 2020 – December 2021
Trisha Brown	March 2020 – December 2021
Karen Case	March 2020 – December 2021
Justin Cesarin	March 2020 – December 2021
Scott Feuer	March 2020 – December 2021
Carin Kaplan	December 2017 - December 2019
Howard Kaplan	December 2017 - December 2019
Maryann Carroll-Moser	December 2017 - December 2019
Bill Wiggins	January 2019- December 2020

In addition the follow City Council Liaisons served during 2019-2020:

Ex-Officio Julie Pierce (Vice Mayor) January 2019 - December 2019 Ex Officio Alternate Tuija Catalano (Mayor) January 2019 - December 2019

Ex-Officio Jeff Wan (Vice Mayor) January 2020- December 2020 Ex Officio Alternate Tuija Catalano (Council Member) January 2020- December 2020 Dear Clayton City Council and Citizens,

The Trail and Landscape Committee (TLC) saw a number of changes in fiscal year 2019-2020. There was a significant change over in the roster of committee members at the end of December 2019. Four of the five TLC members (myself, Bill Wiggins, being the exclusion) opted not to re-apply to be reinstated on the committee at the expiration of their terms in December 2019. Five new Clayton citizens volunteered to serve and in March 2020 began their term on the TLC. Due to this time gap while the committee roster was in transition and then the ensuing disruptions caused by the COVID pandemic from March and throughout the remainder of FY 2020, the TLC only held one meeting (in September 2019) during FY 2019-2020. We are just now able and beginning to meet again to resume our normal role as a citizen oversight committee for the Clayton Landscape Maintenance District (LMD) and Fund No. 210.

Attached to this annual report by TLC for LMD Fiscal Year 2019-2020 is another report titled "City of Clayton Budget Message and Adopted F.Y. 2019-2020 Budget." This report, among other things, discusses what the scope of actions and planned activities were for the LMD and Maintenance Team for FY 2019-2020. Also included in this report are the Maintenance District Activity Reports up until September 2019 as well as the City Staff Report dated October 2019 recommending the discontinuation of Glyphosate ("Round Up") for use in the treatment for weed abatement within the LMD. The last addition to this report is the LMD Fund-210 Financials showing the proposed/adopted budget figures and actual revenue and expense figures pertaining to the FY 2019-2020 LMD budget.

For this Annual Report, I would suggest the primary highlights of 2019-2020 FY were as follows:

- 1. The commencement and substantial completion of the downtown planter and tree replacement project.
- 2. The completed scheduled replacement of two DX3 irrigation controls as part of the ongoing irrigation upgrade project.
- 3. The changes in CCWD water service rates and the substantial impact on the LMD from this increase on expenses in the 2019-2020 budget.
- 4. Impact from the city staff recommendations to put a moratorium on the use of glyphosate by maintenance crews for weed abatement on trails and medians within the LMD initiated in October 2019.
- 5. Prohibitive impact of COVID pandemic on staff's use of outside seasonal contract workers for maintenance work from March-June 30 FY 2020.

2

A review of the 2019-2020 FY Financial Report which the TLC was furnished and is included in this report shows that the actual revenues and expenditures were mostly in line with the proposed/adopted budget the TLC approved. The downtown planter replacement project (Acct Item 7520) was substantially completed at close to the projected budget estimate figure. There was a noteworthy but not unexpected increase in water services expense (Acct Item 7338) during FY 2019-2020 from FY 2018-2019. Weed abatement expenditures (Acct Item 7445) was also somewhat higher than projected. Much of these increases were offset by lower than expected expenditures in other areas like seasonal contract labor (Acct Item 7435) also the Clayton road median project which was planned to be done in FY 2019-2020 was shelved to a later date post COVID beyond the 2019-2020 FY.

All in all the LMD financials show no inappropriate use of District funds and a year-end financial position that remains healthy and in order going into FY 2020-2021.

3

City of Clayton Budget Message Adopted FY 19-20 Budget Special Revenue Funds

A. Citywide Landscape Maintenance District - Fund No. 210

In June 2007, Clayton voters approved a replacement real property special tax to continue funding the operation and maintenance of its citywide public landscaped areas. This voter action created the City of Clayton Landscape Maintenance Community Facilities District 2007-1 (LMD). This annual special parcel tax is restricted to landscape costs associated with: arterial and specified roadway medians and parkways, the trails system, the annual open space non-native (exotic) invasive weed abatement in city-owned open space of the area hills, the annual open space and trails weed abatement for fire and public safety, landscape and turf irrigation and the monthly maintenance and special occasion/holiday operation of the "Clayton Fountain". Operations for the LMD are separately accounted for by the City in a restricted-use special revenue fund.

Measure B, the 2007 ballot measure, expired June 30, 2017. Given this was the only source of funds for the maintenance and operation of the LMD, in order continue this sole funding a special parcel tax, "Measure H" was placed before the voters on the June 7, 2016 ballot needing two-thirds (66.67%) voter approval. In June 2016, the voters overwhelmingly elected (77.1% positive vote) to extend the LMD special parcel tax for an additional ten (10) years.

Maintenance of City parks is <u>not</u> included as an authorized expenditure under the LMD Act; park maintenance obligations fall to the City's General Fund. Citywide public landscaping services have always been funded by a special parcel tax levied on private properties throughout the City. The LMD has now completed its second year of operation under Measure H. The LMD has a City Council-appointed Trails and Landscaping Citizens' Oversight Committee (TLC) that meets periodically to ensure the promised maintenance standards and efficiencies are achieved and reviews the budget ensuring these special-purpose tax revenues are used for their intended purpose as established under the previous ballot measure for the LMD.

Pursuant to the terms of voter-approved Measure H, the special parcel tax rate may be modified annually by the change in the consumer price index (CPI) as published by the U.S. Bureau of Labor and Statistics from April to April for this geographic region (San Francisco-Oakland-Hayward, CA). In no event shall the special parcel tax rate be increased by more than three percent (3.0%) annually. Given the local CPI change (from April 2018 to April 2019) was 4.01% the special parcel tax growth factor must be capped at 3.0% for FY 2019-20. Accordingly, the LMD'S projected revenues are proposed to be increased by 3.0% to a total of \$1,155,398 for FY 2019-20. This results in a modest increase to LMD special parcel tax revenues of \$33,652 over the prior year's adopted budget. The capped CPI growth adjustment will result in an increase of \$7.68 per residential parcel over the prior year rate (last year's single family rate was \$255.86; including the capped CPI adjustment factor the new single-family parcel rate will be \$263.54).

Over the past ten years, from FY 2007-08 through FY 2018-19, it is estimated the LMD will have used approximately \$1.7 million of these special parcel tax funds for public landscape and irrigation and trail system improvements. When including additional LMD improvement projects planned for FY 2019-20, the LMD will have invested over \$2 million into landscape-related capital improvements in addition to maintaining current landscaping. For FY 2019-20, the LMD has budgeted to fund the following landscape improvement projects already reviewed and approved by the City Councilappointed TLC during their review of the FY 2019-20 draft budget:

Project Description		Amount	Project ID
Downtown Planters Replacement Project	\$	245,157	LMD2015-1
Clearing Trail Dead Brush		10,000	LMD2019-3
Wireless Irrigation Controller Replacement (ongoing)		20,000	LMD2019-4
Clayton Rd. Median Improvements		56,000	LMD2019-5
Replace Irrigation System Central Control Panel		30,000	LMD2020-1
Subtotal	***************************************	361,157	
Subdivision/City Entry Sign Replacement Contingency	-	2,000	
Grand Total	\$	363,157	

The proposed LMD budget is a balanced operational budget, responsibly utilizing fund balance to undertake non-recurring capital improvement projects. This practice is consistent with prior year budgets as the LMD is pay-as-you-go for such improvements, responsibly drawing on fund balance as needed. Proposed appropriations of the budget are annually adjusted for anticipated water and electrical utility rate increases as well as for fuel, fertilizer, water, etc.

The prior year's City Council adopted budget included the Downtown Planters (Main Street) replacement project at an estimated total cost of \$300,000. By the close of FY 2018-19, it is estimated \$55,413 will have been incurred to-date for plan preparation and specifications (\$19,069 in FY 2016-17; \$1,344 FY 2017-18; \$35,000 projected for FY 2018-19). For FY 2019-20 a budget estimate of \$245,157 is being set aside for construction and completion of this project. The City Engineer is undertaking plan and specification updates and anticipates going out to bid by the close of FY 2018-19. The lowest responsive bidder would then be recommended directly to the City Council for direction. The work for this project is anticipated to be completed between July and September of 2019. If the project bid comes in higher than budgeted, the City Council would need to authorize additional appropriations for this project from either the reserve or re-allocations of appropriations included in the FY 2019-20 proposed budget. This project has been delayed due to other pressing work items requiring attention of the contract City Engineer including street repair and repaving projects and the El Molino Drive Sanitary Sewer Improvement Project. As such, the proposed budget plans to roll unspent appropriations for this project into FY 2019-20 anticipating its completion by the end of the fiscal year.

During FY 2018-19, the previously approved project to remove 18 large eucalyptus trees in the specified open space areas was completed within the budgeted cost of \$185,000. Trees in the scope of this project identified as hazardous and requiring removal were located on Regency Dr. and El Molino Dr. as well as along a portion of the Cardinet Trail adjacent the Rachel Ranch subdivision.

Two years ago the adopted budget included a city-wide subdivision entry relandscaping project estimated to cost \$300,000. Although concept plans were approved, outside Landscape Architect services were needed to survey all utilities and irrigation as well as prepare construction level plans and specifications for public bidding. Despite much effort, staff was unable to locate a qualified Landscape Architect with the time or interest to undertake this project and submit a proposal for this work. Therefore last year (FY 2017-18) the City Council put a hold on the project, and the allocated funds were returned to the fund reserves in FY 2017-18. There are still no plans to move forward with this project at this time, and the fund balance is insufficient to undertake the magnitude of this project.

Over the past year the LMD has generated a modest reserve balance to allow the consideration of the aforementioned non-operational landscaping improvement projects to be undertaken. Although the proposed budget anticipates an ending fund balance reserve of \$449,430 by the close of FY 2019-20, staff is not proposing additional capital projects in order to allow time to complete prior approved projects and to have sufficient funds for normal operational cash flow purposes.

An enormous impact on LMD operations from FY 2012-13 through FY 2016-17 was the declared drought conditions and the severe water conservation reductions imposed by Contra Costa Water District (CCWD) as directed by the Governor's Executive Order Emergency declaration. While homeowners were placed under a 25% reduction plan, city and commercial irrigation water consumers were set at a massive 45% mandatory water reduction order. With irrigation cutbacks of that magnitude, the City Council ordered the LMD to suspend irrigation water to turf and bushes, reserving restricted water supplies to irrigate public trees. The LMD also halted all operation of the Clayton Fountain (even though it is a recirculating fountain) and reduced outside watering to two days per week. This action plan negatively impacted much of the water intensive landscape in order to sustain the more valuable plants and mature signature trees in the LMD. Capital improvement projects engaged during the extended drought timeframe were hardscape-only oriented.

Although the State of California and CCWD relaxed water restrictions, allowing additional outdoor water irrigation uses than in the recent years, there are still reductions needed to balance against recent water rate increases. For example, new case law has now mandated water districts re-engineer their billing rate structures to incorporate greater costs for service areas with greater water delivery demands (i.e. higher elevations

requiring more energy for delivery). Clayton's geographic location resulted in a rate tier increase by CCWD in January 2019 of over 6%. The proposed budget for LMD water irrigation supply service incorporates a large projected water cost increase of \$45,300 over the prior year budgeted figure, bringing the total budgeted water supply expenditure to \$202,300. In addition to rate increases, the growth in the water services line item over the last two years also reflects the normalization of water irrigation costs back to pre-drought periods.

Personnel services for this labor-intensive work effort account for 32.98% of the LMD budget in FY 2019-20 (\$500,700). Whenever possible, less complex tasks within the LMD are assigned to in-house part-time or contract temporary seasonal personnel, which allows full-time permanent City maintenance personnel to focus their efforts on tasks requiring journeyman-level experience (i.e. irrigation line and system repairs). The LMD has only one full time dedicated staff person of the six (6) permanent Maintenance Department personnel.

As approved by Measure H voters, the LMD'S budget includes a recurring line item (account 7316) for the purchase of replacement plants, budgeted at \$20,000. The LMD further contributes an annual allocation to the City's Capital Equipment Replacement Fund (CERF) for its shared cost of utilizing City Maintenance Department vehicles for LMD operations budgeted at \$30,000 in FY 2019-20. A relatively nominal amount of \$38,760 (3.30% of annual LMD revenue) is transferred to the City's General Fund to help defray the LMD's share of administrative support and overhead incurred by the City (i.e. telephones, payroll processing, accounts payable, management, compliance, legal, etc.).

With all of these actions, the LMD's ending fund balance on June 30, 2020 is projected to be \$449,430. The LMD's healthy reserve position is evidence the City does not siphon "surplus" monies into its General Fund but uses the special parcel tax revenues for its intended voter-approved purposes. Its monetary existence is now crucial with the LMD re-examining priorities to replace landscape lost (including adding in more hardscape treatments) from the necessary extreme water conservation measures during recent drought conditions.

The TLC reviewed the FY 2019-20 proposed budget at its public meeting on April 15, 2019. After review, the TLC recommended the special parcel tax levy for the LMD be increased by the inflationary cap of 3.0% pursuant to the voter-approved Measure H. The TLC further recommended approval of the proposed LMD budget for FY 2019-20 as presented, including the specific landscape improvement projects outlined previously.

TRAILS & LANDSCAPING MAINTENANCE DISTRICT ACTIVITY REPORT 4/16/19 to 9/15/19

- City staff landscaped the second half of the median on Clayton Road at Lydia Lane
- Management acquired three bids for the City's annual fire weed abatement along open space, awarded the contract and administered the contract though its completion in mid-June.
- City staff conducted annual fire weed abatement by cutting/flailing the weeds along the Cardinet Trail and other major paved the trails throughout the City in compliance with Contra Costa County Fire District regulations
- Trimmed the shrubs in the outbound direction of Clayton Road.
- Trimmed the shrubs in the inbound and outbound directions of Oakhurst Blvd.
- Trimmed shrubs on Keller Ridge Drive between back of curb and sidewalk as well as the corners of side streets.
- Maintenance had the irrigation controller on Marsh Creek Road at the Black Diamond Trail repaired
- City Maintenance staff repaired the mainline on Peacock Creek Drive, repaired several irrigation valves and also repaired many sprinkler heads
- City Staff repaired the irrigation mainline on Oakhurst Blvd. at Indian Wells Drive.
- City crews are in the process of cleaning debris from the creeks, when finished with the creeks we will start cleaning V-ditches
- Two new dog waste dispenser's and trash receptacles were installed by donation from CBCA through the City-wide community donor program (copy attached).
 Pursuant to the City Council per approved locations in the program, one was installed near the trail at El Molino Dr. at old Marsh Creek Rd., the other at Lydia Lane Park near the Cardinet Trail entrance.
- A Large stone pine was removed when it fell into the open space next to 314
 Meredith Ct.

- Elm trees on Clayton Road near the south side of Lydia Lane Drive were thinned and raised due to the safety concerns.
- A large Stone Pine tree in the open space behind West Myrick Ct. dropped a large branch into the yard at 320 West Myrick Ct. The branch was removed from the tree and the tree was safety pruned.
- Trees on Clayton road were side pruned for sight clearance of the traffic lights at Diablo View Middle School in both the East and West bound directions.
- An Oak Tree on Clayton Road between Center Street and old Marsh Creek Road had to be removed due to the splitting of the trunk of the tree. Unfortunately this tree could not be saved. The tree next to it was thinned to prevent damage to it.
- The large Pepper tree on Clayton Road at Mitchel Canyon was side pruned for sight clearance of the traffic signal light.

Re:

Landscape Maintenance District Project Updates

- The Downtown Planter Box Project contract was unanimously approved for award of construction contract at its August 20, 2019 meeting (the Aug. 20, 2019 City Council Resolution, minutes, staff report and power point presentation for this item are attached as information). The signed contract, bonds and insurance has been submitted by the contractor. The City Engineer is working on the construction schedule with the Contractor, with construction targeted to begin sometime in October, after Oktoberfest.
- The trees on the major arterial have been inspected and are scheduled to be thinned and raised to 15 feet for City standards in November, December depending on outside contractor availability and priorities.
- Two new Rain Master DX3 irrigation controllers will be installed in the upcoming months: One on Oakhurst at Eagle Peak west and one at the corner of Oakhurst and Clayton Road. Both of these new controllers will operate with the updated oases computer program for the central irrigation system.
- Stump removal is tentatively planned to on Clayton Road this fall in preparation for replanting targeted for this fall/winter.
- The Peacock Creek Trail is planned to have some repair/ be renovated after this winter rains are over.

SUBJECT: Consideration of a Moratorium on the use of Glyphosate (Round Up)

RECOMMENDATION

Within the past year, a growing number of government agencies have reduced or eliminated the use of Glyphosate as a weed prevention tool. Although, the health effects/risks associated with the use of Glyphosate are still unclear. Staff is recommending a moratorium on the use of Glyphosate until spring of 2021. At that time, staff can bring back a consideration item to the City Council to evaluate the status of Clayton landscaping. Over the next 18+ months, staff will utilize a variety of alternative methods in an effort to effectively manage weeds.

BACKGROUND

Glyphosate is the active ingredient in the herbicide Roundup and other weed prevention products. Its use originated in Agriculture, but it is now commonly used in both commercial and residential landscape maintenance.

Worldwide, there are currently thousands of lawsuits pending regarding the health implications of Glyphosate. To date, the City of Clayton has no record of any health impacts stemming from the use of this product.

On February 5, 2019 the Clayton City Council discussed the use of Glyphosate, At that time. Clayton staff made it clear that this product is only utilized by certified pesticide/herbicide applicators wearing the appropriate safety equipment.

For the past several months, the use of Glyphosate for weed prevention purposes in Clayton has been limited to areas where pedestrians are unlikely to be found. The City staff has ceased use of this product in parks, along trails, and adjacent to sidewalks. However, the product has continued to be used on steep hillsides adjacent to roadways and in roadway median areas.

Subject: Consideration of a Moratorium on the use of Glyphosate (Round Up) Date: October 15, 2019
Page 2 of 2

DISCUSSION

The City of Clayton is generally faced with the following three (3) choices related to the use of Glyphosate:

- Revert to the past practice use of Glyphosate as a weed management tool in all areas of the City.
- Continue with the current practice of allowing the use of Glyphosate as a weed management tool in limited to areas where pedestrians are unlikely to be found.
- Prohibit the use of Glyphosate and utilize other alternate methods to manage weeds in Clayton.

If Glyphosate is prohibited, the City of Clayton Maintenance Department will be limited in the number of alternative weed prevention methods available. Those alternatives methods include:

- Hand Pulling Weeds,
- Weed Cutting at ground level.
- Use of pre-emergent to reduce the growth of weeds,
- Use of organic weed and grass killers (such as BurnOut) that kill the above ground weeds but unfortunately do not prevent regrowth,
- Use of free mulch from local tree trimming companies that can be spread in various areas in an attempt to reduce the growth of weeds.

FISCAL IMPACT

The fiscal impact of a prohibition of the use of Glyphosate is initially estimated to be \$25,000 per year. This amount is an initial estimate of costs related to the implementation of the alternatives weed prevention methods listed above.

In addition to cost impacts, it is anticipated that the alternative methods of weed control may be less effective and result in more unsightly weeds in public areas. The actual impacts would be more easily quantifiable after a period of time when staff has had one or more grow seasons to experience maintenance without the use of Glyphosate.
