Dividend and interest income earned

For purposes of this statement, taxability of interest and dividend income has been determined from a US tax reporting perspective. Based upon the residence of the account holder, account type, or product type, some interest and/or dividend payments may not be subject to United States (US) and/or Puerto Rico (PR) income taxes. The client monthly statement is not intended to be used and cannot be relied upon for tax purposes. Clients should refer to the applicable tax reporting forms they receive from UBS annually, such as the Forms 1099 and the Forms 480, for tax reporting information. It is the practice of UBS to file the applicable tax reporting forms with the US Internal Revenue Service and PR Treasury Department, and in such forms accurately classify dividends and/or interest as tax exempt or taxable income. Please consult your individual tax preparer.

Deposit account balances at UBS Bank USA and all banks participating in the UBS FDIC-Insured Deposit Program and the UBS Insured Sweep Program are insured by the FDIC up to \$250,000 per depositor per ownership category, but are not protected by SIPC. UBS AG Stamford Branch deposit account balances are not insured by the FDIC and are not protected by SIPC. Money market sweep balances are protected by SIPC but are not insured by the FDIC.

Prices are obtained from independent quotation bureaus that use computerized valuation formulas to calculate current values. Actual market values may vary and thus gains/losses may not be accurately reflected. Cost basis has been adjusted for accreted original issue discount (OID). Cost basis has been

automatically adjusted for amortization of bond premium using the constant yield method. If you have made a tax election to deduct the premium amortization on taxable debt securities, you may request that UBS adjust cost basis for the bond premium amortization.

Investment objectives

The investment objectives and risk profile are specific to each account and may vary between your accounts. Please advise the Firm promptly in writing of any significant change in your financial situation or investment objectives. For each account held, you choose one of the following investment objectives:

- **Produce Current Income:** Investments seeking the generation of income only.
- **Achieve Capital Appreciation:** Investments seeking growth of principal rather than the generation of income.
- **Produce Combination of Income and Capital Appreciation:** Investments seeking both the generation of income and growth of principal.

Overall risk profiles

- **Conservative:** Seeks to maintain initial principal, with low risk and volatility to the account overall, even if that means the account does not generate significant income or returns and may not keep pace with inflation.
- **Moderate:** Willing to accept some risk to principal and tolerate some volatility to seek higher returns.
- **Aggressive:** Willing to accept high risk to principal and high volatility to seek high returns over time.
- **Investment Eligibility Consideration:** If selected, a portion of the portfolio for that account may include complex strategies, limited liquidity, and greater volatility.

- **Cost basis.** Where cost basis of an asset is displayed with the number "1", the Firm has relied on information obtained from another firm or that you provided to your Financial Advisor. The Firm does not independently verify or guarantee the accuracy or validity of any information provided by sources other than the Firm. Although the Firm generally updates this information as it is received, the Firm does not provide any assurances that the information under "Cost basis" and "Unrealized gain/loss" is accurate as of the date of this statement. Do not rely on this information to make purchase or sale decisions, for tax purposes or otherwise. Accounts transferred to the Firm may reflect gain/loss information only for the period of time they are held at the Firm. More historical information can be added by your Financial Advisor.
 - **Unrealized gains/losses.** When data is available, estimated unrealized gains/losses are calculated for individual security lots. - **Price/value.** Prices displayed may be higher or lower than the price that you would actually receive in the market. Prices are obtained from various third-party sources which we believe to be reliable, but we do not guarantee their accuracy.
 - We generally use the closing price when available or the mean of the bid and ask prices for listed securities and options or only bid prices for OTC securities.
 - Less actively traded securities may be priced using a valuation model or the most recent price we obtained and may not reflect an actual market price or value.
 - Certain positions may show as "price was not available" if we are unable to obtain a price.
 - Deposits or securities denominated in currencies other than U.S. dollars are reflected at the exchange rate as of the statement date.
 - For certain securities trading in non-conforming denominations, price, and quantity (face value) may have been adjusted to facilitate proper valuation.

To obtain current quotations, when available, contact your Financial Advisor.

Private investments and structured products

Private investment securities (including direct participation program and real estate investment trust securities) and structured products are generally highly illiquid. Certain structured products have not been registered with the Securities and Exchange Commission or under any state securities laws. We provide estimated values for informational purposes only. Accuracy is not guaranteed.

- These values may differ substantially from prices, if any, at which a private investment security or structured product may be bought or sold and do not necessarily represent the value you may receive upon liquidation.
- Third party estimates of value are as of a certain date and are supplied to the Firm on a regular basis by an independent valuation firm.
- Issuer, general partner, or sponsor estimated values, if any, are supplied to the Firm by such parties and may be based on different information than third parties' estimated values.
- Contact your Financial Advisor for additional information regarding the methodology used to

determine estimated values and the date of the information that is the basis for the estimates.

- Third party estimated values may be reflected as "Not priced" if: an independent valuation firm has not supplied or is unable to assign a value; we become aware that a material event has occurred that may call a previously reported value into question; or a value would be highly speculative due to the nature of the security.
- When neither an issuer, general partner or sponsor estimated value nor a third-party estimated value is provided, the value of the security will be different from its purchase price.
- "Distributions to date" may include return of capital, income, or both.
- "Original unit size" represents the initial offering price per unit and may not reflect your cost basis.
- DPP and unlisted REIT securities are not listed on a national securities exchange, and are generally illiquid, and even if they can be sold, the price received may be less than the per share estimated value provided in the account statement.

Estimated income, current yields, and rates

An estimate of annual income is based on current dividend and interest rates, assuming the securities will be held for one year from statement date or until maturity. Actual income and yield might be lower or higher than the estimates. Accuracy of the estimates and continued income are not guaranteed.

- Estimated annual income and current yield may include a return of principal or capital gains in which case the estimate would be overstated.
- An estimate of annualized income is based on the last payment made by the issuer and assumes the securities/deposits will be held for one year from the statement date or until maturity.

Alternative periodic reporting

Where permitted, transactions effected pursuant to a periodic plan or an investment company plan, or in shares of certain money market funds are reported on your periodic account statements in lieu of immediate trade confirmations. Additional transaction details that would ordinarily appear on the trade confirmation will be furnished upon written request.

Dividend Reinvestment Program (DRIP)

The price reflected is an average price. You may obtain the actual price from your Financial Advisor. Only whole shares are purchased under DRIP; partial shares will be sold, and the cash will be deposited in your account. The dividend reinvestment price supplied by the issuer may differ from the market price at which the partial shares are sold.

Fractional shares/ cash-in-lieu

If you are entitled to a partial unit as a result of a dividend payment, corporate action, DRIP or otherwise,

the Firm will either sell partial units at market price or accept an amount determined by a registered clearing agency, and credit your account.

Assets not held by UBS Financial Services

Certain assets that are not held by the Firm and not within the Firm's possession or control are displayed for your information and convenience only. Positions and values presented are provided by the issuing firm. The Firm is not responsible for this information and does not guarantee its accuracy. These assets are not protected by SIPC or the Firm's supplemental SIPC coverage.

Revenue sharing and additional compensation

- In addition to commissions on sales and 12b-1 fees received in connection with the distribution of mutual funds to our clients we and/or our affiliate receive revenue sharing payments from distributors and/or advisors of the mutual funds that we sell. These amounts are based on two different components: (i) the amount of sales by UBS of a particular mutual fund family to our clients; and (ii) the asset value of a particular mutual fund family's shares held at the firm.
- We and our affiliate also receive networking and omnibus processing fees in consideration for transfer agent services that we provide to the mutual funds. These fees generally are paid from investor assets in the mutual fund and are a fixed dollar amount based on the number of accounts at the broker-dealer holding mutual funds of that fund family.
- Our affiliates also receive trading commissions and other compensation from mutual funds whose products we distribute.

Commissions and other charges

Information regarding commissions and other charges related to the execution of trades, including option transactions and security futures transactions has been included on confirmations previously furnished to you, and will be provided to you promptly on request. In addition to regular account fees, accounts may be subject to maintenance fees, charges for late payment for securities purchases and charges for unpaid amounts in cash accounts. Accounts that are transferred to other institutions may be subject to a transfer fee. If you are engaged in short selling a security, you may incur a charge due to certain borrowing costs for that particular security.

Investment Advisory Program Fees

Program Fees for Investment Advisory Accounts are reflected under **Account Activity This Month**. "Current Quarter Advisory Fee" represents the UBS Advisory Fee and, if applicable, SMA Manager Fees that are charged in advance on the net asset value of the account on the last day of the prior calendar quarter. The "Prior Quarter Fee Adjustment" is the change (increase or decrease) to the quarterly fee based on the

average daily balance of the account for the previous quarter. Additional adjustments to the Advisory Fees for account activity in certain programs ("Pro-rated Quarter Advisory Relocation Charge," "Current Quarter Reallocation Adjustment"), initial fees ("Initial Fee") and account terminations ("Termination Fee") will also be shown. For more information, including details about our billing practices see the Form ADV Brochure at ubs.com/formadv, or contact your Financial Advisor.

Open or "good-till-cancelled" orders

Open buy and sell stop orders are reduced by the amount of dividends or rights on an ex-dividends or ex-rights date unless instructed otherwise by you. You are responsible for orders that are executed due to your failure to cancel existing open orders.
